

## SECURITY & SAFETY MAGAZINE 2012 EDITORIAL PLAN

S&S Magazine #1	S&S Magazine #2	S&S Magazine #3	S&S Magazine #4	S&S Magazine #5	S&S Magazine #6
Dead line 06.02.2012 Issue date 5.03.2012	Dead line 13.03.2012 Issue date 20.04.2012	Dead line 30.04.2012 Issue date 07.06.2012	Dead line 13.08.2012 Issue date 13.09.2012	Dead line 04.10.2012 Issue date 02.11.2012	Dead line 21.11.2012 Issue date 21.12.2012
Industry Focus					
TEST: Automobile Video Recorders	TEST: Megapixel WDR box-IP Cameras	TEST: Cheapest Megapixel IP Cameras	TEST: Hybrid Video Recorders	TEST. Expensive Less-Chanel Video Recorders For Analogue Cameras	TEST: IP Cameras For Public Transport
Video Surveillance					
Key Subject: Video Quality And Optics	Key Subject: Extreme Usage Circumstances	Key Subject: Not Only Surveillance	Key Subject: Remote Monitoring	Key Subject: IP-Video Surveillance	Key Subject: Key Trends Of 2012
Lenses For Indoor And Outdoor Cameras	Video Surveillanec System Protection: Risks And Their Prevention	Video Surveillance In Multiple Applications: Perimeter Protection, Access Control, Business-Monitoring, Video Conference Communication, Fire Safety	Suppliers' Round-Table Discussion: Real Possibilities of Mobile Video Surveillance	Review: "Young" Brand-Names At IP Surveillance Market	Technical Leaders' Round-Table Discussion: 3 main Trends Of The Year
Installers' Round-Table Discussion: The Right Lense Chosing For Different Tasks	Extreme Temperatures: Newest Technologies & Equipment	Technical Review: Thermal Imagine Cameras	Technical Review: Mobile Video Recorders	Innovations of IP-Video	2012 Year: Business Results From Leading Vendors And System Integrators
Video Surveillance In Low Light Circumstances	Technical Review: Special Cameras For Usage In High And Low Temperatures	Form Factor: Housing Against Domes	Market Review: Low-Cost, Middle-Cost And High-End Monitors	Suppliers' Round-Table Discussion: Education Of Installers	Best Products And Projects
Technical Review: Video cameras With Built-In IR LED. Part 2	Storage Systems: Uninterrupted Power Supply	Market Review: Components And Accessories	Wireless Video Surveillance: Moving To Reality	Technical Review: NVR	Technical Review: High Resolution Dome Cameras

## Machine Vision Corner

Comparative Analysis: Face Recognition Systems	Video Analytics In Retail	Steam & Fire Detection	Searching For Similar Objects In The Archive. Tasks Of Federal Security Service Of Russia	Video Analytics And Geo-Information Systems: Searching For Events Using A Map	Video Analytics Based Channels Control
--	---------------------------	------------------------	---	---	--

## Access Control

Key Subject: Access Control Architecture	Key Subject: Multidivisional Objects	Key Subject: New Trends In Identification Systems Development	Key Subject: Security Of Critical Important Objects	Key Subject: Network technologies In Access Control	Key Subject: Key Trends Of 2012
International Standardization in Access Control: Profits Of Open Supervised Device Protocol	Software In Access Control: Newest Functions And Possibilities	Identification. Technology “Security Object Embedded”	Market Review: Barriers and Anti-Ram Devices	Web Access Control Management: Features, Advantages, Disadvantages	Technical Leaders’ Round-Table Discussion: 3 main Trends Of The Year
Access Algorithms: Uncommon And Exclusive Functions	Methods Of Protection Increasing In Access Control: Passwords, Data Backup etc.	“Unusual” Functions In Access Control: Parking Management, Hands-Free Access, Payments In Restaurant etc.	Typical Access Control Solution For The Object With Unusual Security Requirements	Cloud Access Control: International Practices. From 5 to 50 000 Keys	2012 Year: Business Results From Leading Vendors And System Integrators
Practical Experience: How To Make Access Control Project Cheaper	Beginning of 2012: Novelties Of Access Control Market. SST Forum 2012	Perspective Biometry: 3D-Identification And Venae Scanning	Power Supply For Access Control Systems	Wireless Access Control: Advantages And Disadvantages	Best Products And Projects
	Technical Review: Armored Gateways And Gate Cabins	New Season In Access Control Market: Winter/Summer. New Products.		Technical Review: Electromechanical Locks	Technical Review: Electromagnetic Locks

## Fire & Intruder Alarms, Fire Safety

Key Subject: Cable Systems	Key Subject: New All-Union Standard P 53-325	Key Subject: Innovations	Key Subject: Middle-Sized And Small Objects	Key Subject: Integration	Key Subject: Fire Safety Automation
Fireproof Cable FRLS And FRHF: What Is The Difference?	New All-Union Standard: Main Changes And Impact To The Market	Video Analytics In Fire Safety: Possibilities And Perspectives of Usage	Loud-Speakers For Middle-Sized And Small Objects	Security And Fire Safety Systems Integration	Efficiency Of Fire Safety Automation And Domestic Regulatory Base
Questionnaire: New requirements Of Fire Safety And Cable	New Requirements To Fire Safety Equipment	Regulatory Base: Implementation Of Video Analytics. Perspectives	Technical Review: Loud-Speakers. New Products	Fire And Intruder Equipment According To The New version Of	Technical Review: Novelties Of Fire Safety Automation Market

Production Markets.		And Results		All-Union Standard 53-325	
Technical Review: Fire Proof Cables	Fire Protection Level Increasing: Regulations And Technologies	Innovation Technologies In Fire Alarms Production	Technical Solutions For Fire Safety: Advantages And Disadvantages	Technical Review: Fire And Intruder Equipment.	Fire Alarms. Flame Test.
Intruder Alarms: Alert Transmission Technologies			Perimeter Protection: News Product And Technologies. Results Of IFSEC'2012.		

### Integration

Practical Experience: Organization And Optimization Of IT-Department In Middle-Sized And Small Businesses	Networks: Optimization For Megapixel Data Streams	Automated Fire Alarms And Alert Systems Projecting And Installation At Municipal And Culture Objects	Structured Cable Systems Projecting And Installation	Integrated IP-Video Surveillance Systems For Analogue Counters	Security & Safety For Enterprisers Of Energy Complex
Technical IT-Security Means vs Human Factor	Installers' Round-Table Discussion: Successful Practices In Extreme Circumstances	System Integration In Sole Information Security System	Practical Experience: Integration Of Fire & Intruder Alert Systems From Different Vendors	System Integration In Sole Information Security System	Servicing Contract: How To Increase Installer's Profits And Make Them More Predictable
	Securing Of Railways And Their Infrastructure				

### IP Security

Key Subject: Mass Product	Key Subject: Cloud Security	Key Subject: IP-Thermal Imaging	Key Subject: New Brand Names	Key Subject: Wireless Technologies	Key Subject: HD-SDI vs. IP
Expert's Round-Table Discussion: The Most Important Parameters For IP Cameras	Cloud Services Review	Thermal Imaging Technologies In IP-Cameras	Round-Table Discussion: Trends And technologies Of The First Half Of 2012	Wireless IP-Technologies 2012: New Products In Video Surveillance, Access Control, Fire & Intruder Safety	Round-Table Disussion: HD-SDI vs IP
Review. Mass Cameras Of Popular Brand Names	Open Technical Task: "Once upon a time in one far away country people decided to install IP cameras at 90 000 voting stations. One day and one night cameras should work	Modern Equipment And Solutions For IP Thermal Imaging	New IP Brand Names Appearance At Russian Security Market: Video Surveillance, Access Control, Fire & Intruder Safety	Open Technical Task: Safe City 2012 – Main Principals Of Realization	HDcctv Equipment: Usage Practices

	and recording be made. And each of 150 million citizens of this country should have possibility to check records from any camera in real time regime and check the data in the records archive...”				
	Software for IP	Round-Table Discussion: Present And Future Of IP-Thermal Imaging	B2B or B2C – Which market Is To Be More Attractive For IP-Security In The Nearest Future	Software for IP	2013 Market Forecast – Interview With Industry Leaders
	The One Brand Name Story		Software for IP	The One Brand Name Story	
			The One Brand Name Story
